PRODUCT

OVERVIEW

WELCOME TO THE FAMILY OF SOUND

At home is where the music plays – and it sounds best at home with the family. Music is an integral part of every family's life, including the long-established Canton family. Since 1972, we have been working continuously to develop the best loudspeakers for every taste and budgets. Perfect sound, at any time – join the family of sound.

WITH TRADITION INTO THE FUTURE

In the company's own development centre, at the headquarters in Weilrod, Frank Göbl and his team improve the perfect sound using state-of-the-art technology and high-quality materials. From the first computer simulation to the final surface finish: we always strive for innovative ways to perfectly adapt music and TV sound to living spaces. With technical innovations, state-of-the-art design studies and individual sound solutions, we provide the basis for unadulterated sound in every loudspeaker category.

HEAD OF THE SOUND FAMILY

Since 1972, we have been inviting people to bring the best sound into their homes with our products. From the very beginning, the sonorous company has been in family hands – and with founder Günther Seitz, CEO Christoph Kraus as well as Achim Seitz and Oliver Hennel, Canton will remain family-owned in the future.

SMART

CLEVERLY CONNECTED FOR FIRST CLASS SOUND

Do you love music and want to enjoy your favorite tracks not only in one particular place, but **flexibly in every room in your home**? Canton's smart products, which **can be combined** and **centrally controlled** as desired, make exactly that possible. And you can easily integrate your existing **passive or active speakers** into your existing music system.

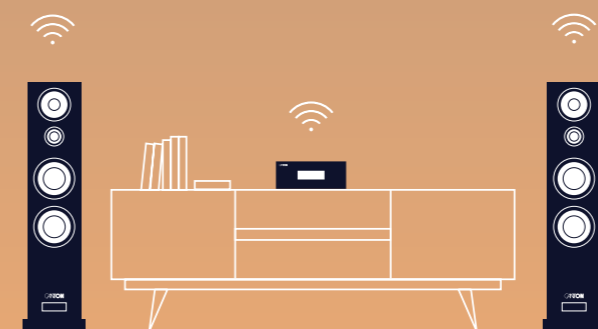

SINGLEROOM

- Combine Smart speakers flexibly within a room
- High-resolution transmission between the speakers thanks to wireless technology
- Easy to operate via a smartphone or the Canton Smart remote

MULTIROOM

- Experience your music in several rooms at the same time
- Multiroom rendition with the focus on sound quality
- Simple operation of various speaker groups via Google Cast or Apple AirPlay 2 technology
- Music and Internet radio via streaming

AMP & CONNECT

- Incorporate existing speakers into the Canton Smart world
- Control centre for all speakers and devices
- State-of-the-art technology for film and music experiences

SMART CONNECT 5.1

With the Smart Connect 5.1, you can integrate your Canton Smart speakers into your Wi-Fi network and make your Canton Smart system **multi-room capable**. Use the compact Smart Connect 5.1 as a **high-quality audio streamer** or expand your Canton Smart speakers into a large home theater system: with **up to eight wireless** speakers from the Smart series and **up to six wired** active speakers.

Dolby Atmos® and DTS-HD™ deliver **impressive 3D home theater sound**.

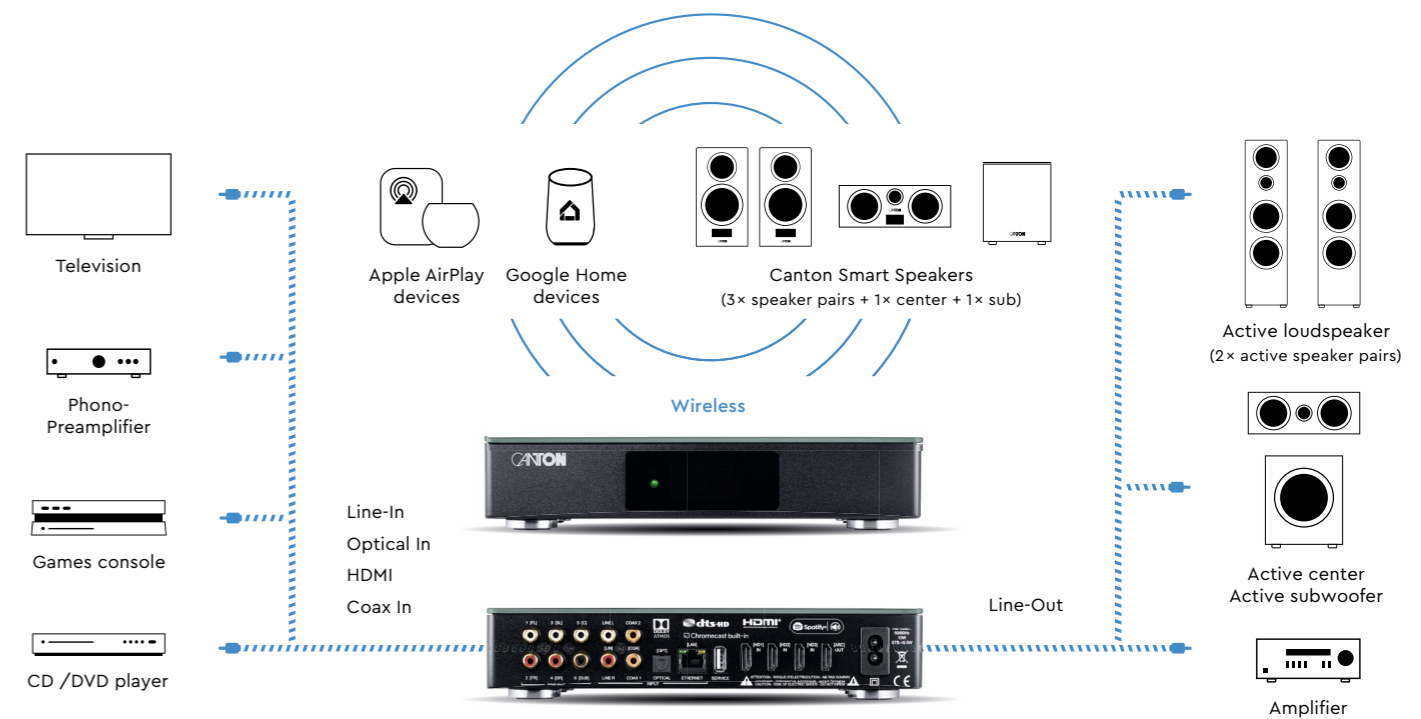

Apple AirPlay 2, Google Cast, and Spotify Connect offer convenient music streaming and a perfect multi-room experience.

In addition, the Smart Connect 5.1 **can be connected to your existing amplifier as a DAC**. Bring your existing sound system into the modern world of streaming and benefit from the ability to connect your TV and other playback devices directly to the Smart Connect 5.1.

Whether as a **streamer**, an **AV preamplifier**, or in combination **as a DAC** with an existing amplifier in a **home theater system** with up to 7.1.4 speakers, the possibilities with the Smart Connect 5.1 are diverse and unique.

Discover how flexibly the Smart Connect 5.1 connects a wide variety of devices and speakers for an incomparably smart sound experience:

- Streamer, AV preamplifier, and DAC in one device
- Wide range of connection options
- Controllable via the Canton Smart app and the Canton Smart remote control
- Dolby Atmos® and DTS-HD™ integrated
- 6 active outputs and 8 wireless outputs
- Integrated display
- AirPlay 2, Google Cast, and Spotify Connect integrated
- 3 × HDMI IN
1 × HDMI OUT (eARC)
- Compact and timeless design

SMART AMP 5.1

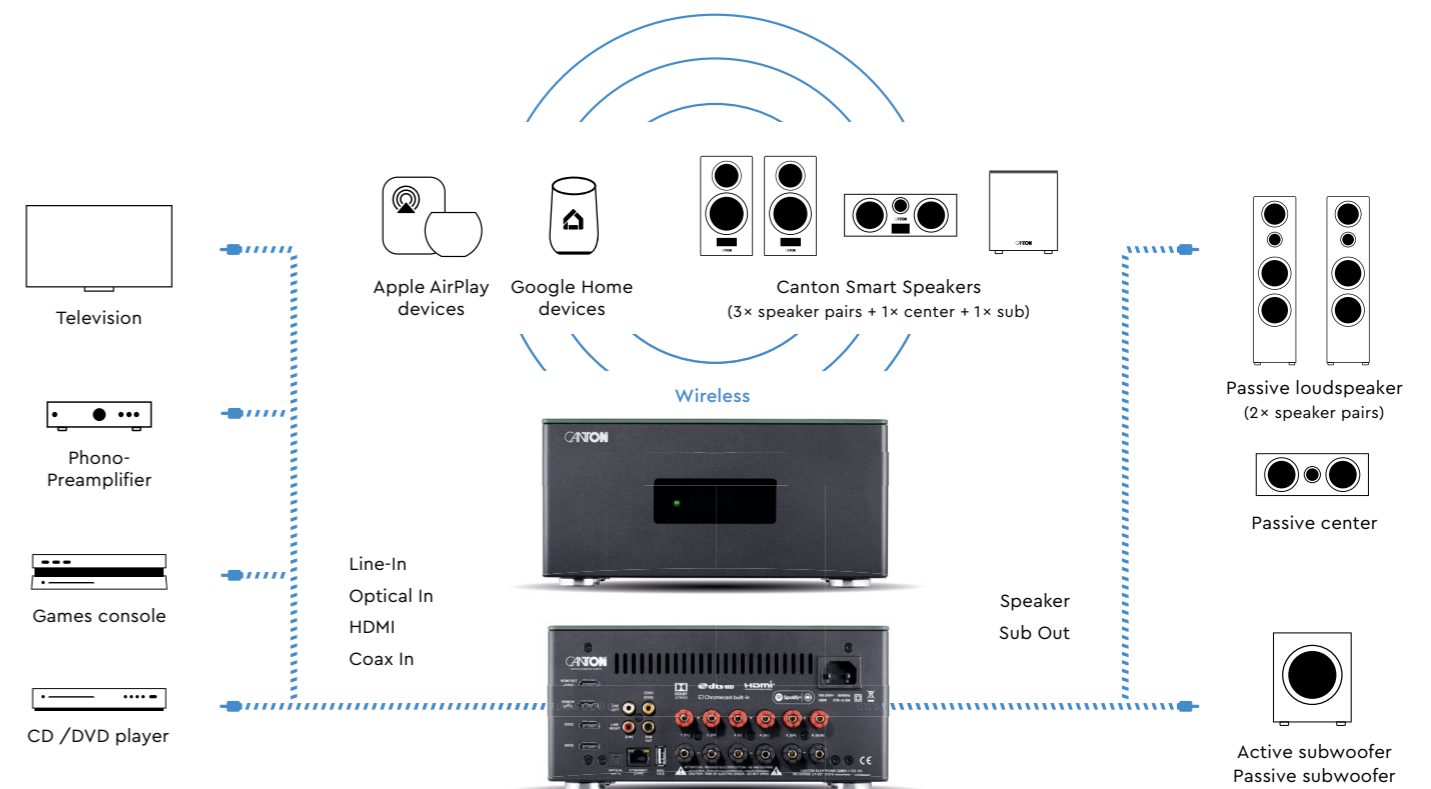

The Smart Amp 5.1 offers a **powerful 600 watts** of output and is one of the **smallest stereo and AV amplifiers** on the market. Connect both your passive speakers and our wireless Canton Smart speakers to the Smart Amp 5.1 – combine the best of both worlds. This **small all-rounder** is the ideal device for high-quality stereo enjoyment and flexible home theater setups.

Apple AirPlay 2, Google Cast, and Spotify Connect ensure high-quality music streaming and a modern multi-room experience. With the integrated Dolby Atmos® and DTS-HD™ multi-channel audio formats, you can also enjoy immersive home theater sound.

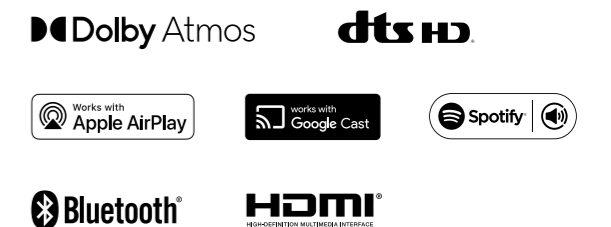

Are you looking for **the right amplifier for your built-in speakers**? Simply connect the Smart Amp 5.1 to up to six ceiling speakers, wall speakers, or outdoor speakers and stream your favorite music conveniently and almost invisibly in any room at any time.

Discover how flexibly the Smart Amp 5.1 connects a wide variety of devices and speakers for an incomparably smart sound experience:

- Stereo and AV amplifier with 600 watts of power
- Wide range of connection options
- Controllable via the Canton Smart app and the Canton Smart remote control
- Dolby Atmos® and DTS-HD™ integrated
- 6 active outputs and 8 wireless outputs
- Integrated display
- AirPlay 2, Google Cast, and Spotify Connect integrated
- 3 × HDMI IN
- 1 × HDMI OUT (eARC)
- Compact and timeless design

SOUNDBARS & SOUNDDECKS

Anyone buying a TV today needs **sound support** for impressive movie and speech resolution. The discreet yet powerful soundbars and sound decks are the ideal solution. Thanks to **virtual surround technology**, our TV speakers deliver outstanding movie sound – the top models even deliver **room-filling Dolby Atmos®** cinema sound. For you, this means **perfect home theater and music enjoyment** with minimal connection effort and the simplest operation.

- Room-filling and precise TV and music sound
- Flexibly expandable to a home cinema set with Smart Series products
- Easy operation via on-screen menu on the TV
- Powerful integrated amplifier with 300 watts
- Soundbars with integrated wall mount
- Sound decks with integrated subwoofer
- Smart models with multiroom control via AirPlay 2 or Google Cast
- Integrated LED display
- Depending on the model available in White lacquer with glass plate and Black lacquer with glass plate

WIRELESS SPEAKER

The **Smart Soundbox 3** with **AirPlay 2**, **Google Cast**, and **Spotify Connect** delivers room-filling sound in an elegant design. The speaker can be set up via Wi-Fi with AirPlay 2 or the **Google Home** app and offers a **wide range of uses**: Use it as a multi-room speaker, in a stereo set with a second Smart Soundbox 3, or combined with other Canton Smart models to create a home theater setup.

The **Smart Libero** speakers are the **perfect addition** to your Canton Smart home theater system. Combined with Dolby Atmos® compatible devices such as the Canton Smart soundbars, the Canton Smart Amp 5.1, or the Canton Smart Connect 5.1, they deliver room-filling surround sound. **Versatile in use** – suitable as a shelf speaker, on the matching LS 40 speaker stand, or for wall mounting.

Smart Soundbox 3

- Multiroom control via Apple Home or Google Home app
- Music streaming via AirPlay 2, Google Cast, & Spotify Connect

- Touch interface with buttons for the most important functions
- LAN connection for a wired connection to your home network

Smart Libero

- Versatile sound upgrade for the Canton Smart system
- Perfect addition to your home theater as a surround or 3D speaker

SMART SUBWOOFER

The Smart Subwoofers are the perfect partner for our Smart speakers, **providing sound pressure and bass** for different room sizes. When needed, the subwoofers support the **soundbars** or **Smart speakers** with enormous dynamics and impressive deep bass. Simply connect the subwoofers to the speakers **wirelessly or via cable** and the listening fun can begin. You set the desired volume, the correct phase and the appropriate channel level via a Smart product such as the Smart Soundbar 10 or the Smart Connect 5.1.

- Powerful subwoofers for room-filling sound
- Flexible wireless expansion with all Smart Series units
- Wireless or wired connection possible
- Responsive bass driver
- Automatic on/off switch
- High-quality finish with glass top plate
- Cabinet surfaces in: White satin finish Black satin finish

HIFI

MUSIC FOR YOUR HEART

Every living room deserves good sound – and the right speakers for your home can fill any room with great sound. Whether you're looking for purist classics or want the features of modern digital speakers, we're sure to have the right speaker designed for your home.

VENTO

Discover the new Vento series: Named after the Italian word for "wind," the new Vento models **combine elegance with powerful sound performance**. The flowing curves, the recessed base, and the new, **distinctive shape of the tweeter** define their unmistakable design. Elaborately curved side panels minimize standing waves inside the enclosure. **Black ATB cones** in the midrange and bass sections, along with the **ceramic tweeter system**, deliver dynamic sound, finely resolved highs, and impressive bass depth.

- ATB drivers (Aluminum Titanium Black) in the low- and midrange
- Ceramic tweeter system
- Wave surround technology
- High-quality internal wiring
- Gold-plated terminals (depending on model: single wiring / bi-wiring / bi-amping)
- Floating base construction
- Magnetically attached fabric grille
- Cabinet finishes in White Semi Matte, Black High-Gloss, Walnut, and Sand
- Matching speaker stand: Vento LS
- Matching Dolby Atmos® enabled speaker: AR-1

TOWNUS

Our Townus loudspeaker series is timelessly elegant, slim and noble, captivating with its **rounded cabinet edges** and high-quality materials. **Modern design language** paired with high-quality technical components make the new Townus loudspeakers a series that can be used flexibly. The **elegant walnut real wood models** or lacquered surfaces in silk matt white or high-gloss black underline the premium claim for every interior style.

- Titanium chassis in the bass and midrange
- Ceramic tweeter system
- Wave-surround technology
- Screwless Diamond-Cut aluminium rings
- High-quality internal wiring
- Gold-plated connection terminal with fine thread
- Modern cabinet design with rounded edges
- Oval fabric cover with magnetic mounting
- Cabinet surfaces in:
 - White silk matt
 - Black „high-gloss“
 - Walnut
- Matching speaker stand: Basic LS
- Matching Dolby Atmos enabled speaker: AR-5

GLE S2

The GLE series has always combined **uncompromising sound quality**, state-of-the-art technology, and timeless design for a unique listening experience. Thanks to their wide range of models and **outstanding value for money**, the speakers in the GLE series are a real crowd favorite. The proven titanium drivers in the new GLE S2 series have been refined with a black coating in an additional manufacturing step. The resulting **ATB bass and midrange** drivers and **AB tweeters** make a striking impression both sonically and visually. The elegant cabinet design with magnetic **oval fabric covers** combines modern design with sophisticated functionality.

- ATB chassis (Aluminum Titanium Black) in the bass and midrange
- AB Tweeter (Aluminium Black)
- Wave Surround Technology
- Silk matt lacquered baffle
- Magnetic, oval fabric covers
- Cabinet surfaces in white decor, black decor, Makassar decor, and walnut decor
- Compatible subwoofers: Power Sub 12 S2, Power Sub 10 S2, and Power Sub 8 S2
- Matching speaker stand: Basic LS
- Compatible Dolby Atmos® enabled loudspeaker: AR-4 S2

PURO

The speakers in the new Puro series impress with their **minimalist design and powerful sound**. Their elegantly shaped, oval column enclosures with finely textured front grilles underscore the clean and modern design language. **High-quality aluminum drivers** in the high-, mid-, and low-frequency ranges deliver a precise and balanced sound. With an **exclusive range of modern color options**, the new Puro models make a statement not only sonically but also visually and can be seamlessly integrated into a wide variety of living spaces.

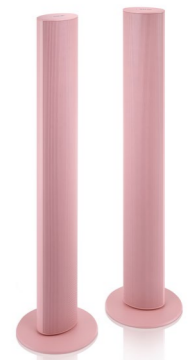

- Aluminum bass-midrange system
- Aluminum tweeter system
- Wave Surround Technology
- Gold-plated Easy-Link terminals
- Elegant column design
- High-quality aluminum housing, front grille in housing color
- Hidden cable routing in the base of the Puro 90
- Available in Matte Black, Matte White, Walnut, Sand, and Rosé
- Matching speaker stand: LS 40

SUBWOOFER

Our **high-performance active subwoofers** all work according to the bass reflex principle and thus ensure a solid low-frequency foundation in **a compact design**. Generously dimensioned oscillating systems with aluminium or titanium chassis combined with 3rd generation wave surround technology ensure **precise, mechanical performance**. In the larger models, the integrated Room Compensation ensures **exact adaptation** to the given room acoustics.

- Powerful woofer systems
- Dual compound cones
- Downfire bass reflex systems
- Powerful digital power amplifiers
- High- and low-level inputs
- Solid cabinet construction
- Compact, timeless cube design
- ASF 75 SC with wall bracket

HOME CINEMA

FOR THE BIG CINEMA SOUND AT HOME

For an authentic cinema experience within your own four walls you need more than a big TV. With the right speakers, you can transform your living room into your very own cinema hall. Raise the curtain on the home cinema speakers from Canton.

5.1 HOME CINEMA SPEAKERS

Perfect home cinema requires at least six speakers: two front speakers, two effect speakers, a centre channel and a **powerful active subwoofer**. Whether as a **high-end system** composed as desired from the HiFi series with floorstanding speakers in the front or as a **compact, unobtrusive solution** such as the **Movie Sets** for smaller rooms: our **versatile product range** always offers the right combination for the most diverse requirements.

- Various home cinema systems for small to large rooms
- Home cinema, music and gaming sound at a high level
- High intelligibility for film sound and games – even at low volumes
- Perfectly matched speaker components
- Powerful active subwoofers for deep, clean bass reproduction
- Large centre speaker for wide sound stage and precise voice reproduction
- Matching speaker stands available as optional accessories
- Matching amplifier: Smart Amp 5.1

INSTALLATION

FOR A HOUSE FULL OF SOUND

Whether inside or outside, in the wall or in the ceiling – it has to sound good, everywhere. When the house is equipped with loudspeakers, there are many ways to combine music enjoyment and modern design in a stylish and sonorous flexible way.

INWALL AND INCEILING **WHICH SERIES SUITS YOU?**

PREMIUM SERIES

Premium series,
Metal grille frameless,
Membrane material: Aluminium Titan Black,
Pivoting Aluminium Black tweeter system

805ER SERIES

Mid-range series,
Metal grille with discreet white frame,
Cone material: aluminium,
Pivoting aluminium tweeter system

INCEILING 855 T

100 volt / 70 volt loudspeaker,
Metal grille with discreet white frame,
Cone material: aluminium,
Pivoting aluminium tweeter system

PREMIUM SERIES

The models in the Premium Series are **2-way systems** and round off the top end of our range of wall and ceiling-mounted speakers. New membrane technology with **ATB bass and midrange drivers** (Aluminium Titanium Black) in combination with the swivelling **AB tweeters** (Aluminium Black) guarantee precision and dynamics in music reproduction. **Easy installation and a modern appearance** with an elegant, frameless front grille ensure a virtually invisible look.

- Swivelling AB tweeter system
- ATB chassis in the bass and midrange
- High-frequency level adjustment for optimised room acoustic
- Metal grille individually paintable
- Low installation depth of <10 cm
- Frameless magnetic metal mesh
- Easy installation thanks to installation templates and Easy-Lock technology
- Phoenix connectors for easy connection of speaker cables
- Installation templates included for convenient mounting
- InCeiling P6 Outdoor: splash-proof and suitable for damp locations

805ER SERIES & INCEILING 855 T

The **InWall and InCeiling models of the 805 series** feature aluminium bass systems with powerful magnetic drives and special aluminium tweeter systems with adjustable dispersion angles and reproduction levels. The metal grilles with discreet frames, which are held invisibly in place by magnets, can be painted to match your interior design.

The **InCeiling 855 T ceiling-mounted loudspeaker** with 100 volt/70 volt technology and high-quality ceramic as the membrane material has a switch under the magnetically held metal grille for adjustment to the amplifier: This allows you to manually set the power levels (100 W, 50 W and 25 W in 100 volt operation, 8 ohms for use in private homes).

ATELIER ONWALL

With their **flat design** measuring less than ten centimetres in depth, the OnWall models in the Atelier series can be hung on the wall like a picture. Yet behind the minimalist silhouette lies **real hi-fi power**.

For a perfect sound connection, the highquality connection terminal is perfectly integrated into the housing using a **'hidden connection'** allowing close-to-wall mounting. A new feature is the option of **VESA mounting**: with a VESA bracket of your choice*, you have complete freedom: tilt, swivel, align – individually tailored to your listening position. The OnWall models come with **magnetic fabric covers** that fit flush with the housing.

- Aluminium Titan Black chassis in the bass and midrange (ATB)
- AB tweeter system (Aluminium Black)
- Flat housing design with "Hidden Connection"
- Integrated wall mount for on-wall installation
- Acoustically neutral, frameless fabric covers, magnetically attached
- Compatible with standard VESA wall mounts (100 × 100 mm hole pattern except Atelier OnWall 3)*
- Available in silk matt black and silk matt white

ATELIER INWALL

If you want an even more discreet look, you can **integrate the speakers into the wall** using the standard installation kit supplied with our Atelier InWall models. The magnetic fabric covering, which protrudes slightly beyond the cabinet, **completely conceals** the speaker cabinet, nestles discreetly against the wall and protrudes only a few millimetres from the wall – **for an almost invisible sound experience.**

- Aluminium Titan Black chassis in the bass and midrange (ATB)
- AB tweeter system (Aluminium Black)
- Flat housing design with "Hidden Connection"
- Installation depth: < 10 cm

CANTON SOUNDSYSTEM FOR ŠKODA

In close cooperation with ŠKODA, we have developed a **premium sound system** that is available as an equipment variant **for the ŠKODA ENYAQ, ELROQ, KODIAQ, SUPERB, OCTAVIA and KAROQ** model – we adapt the system individually for each vehicle model. The Canton sound systems for ŠKODA are characterised by **dynamic compensation of driving noise, impressive virtual surround sound** and a **balanced sound image** for all music styles.

Canton Sound Tuning

Precise adjustment for all seating positions: The focus of the sound can be adjusted individually.

Canton Noise Cancellation

The system dynamically balances out driving noise – wherever you happen to be travelling.

Canton Equalizer

Crystal clear sound: The Canton Equaliser creates optimum acoustics for music, telephone and navigation.

You can find more information about the **Canton sound systems for ŠKODA** on our website www.canton.de/en/partner/automotive/
